PROFILE

Self-motivated web developer with 3.5+ years of IT experiences as a React.js developer.

Having hands-on experience in identifying web-based user interactions and designing and implementing highly responsive user interface components by deploying React concepts. Proficient in translating designs and wireframes into high-quality code and writing application interface code via JavaScript and React.js/Next.js workflows.

SKILLS

Frontend Development: (React, Next.js, JavaScript (ES6+), JSX, HTML5, CSS3, SASS/SCSS)

State Management: (Redux, Redux Toolkit, Context API) • **Testing:** (Jest, React Testing Library, Enzyme)

Version Control: (Git (Github, Gitlab, Bit Bucket)) • **UI/UX Frameworks:** (Material UI, Ant Design, Bootstrap, Tailwind CSS)

Payment Integrations: (Stripe, Paypal) • **Additional Skills:** (Typescript, Formik, Axios, JIRA, Netlify, Visual Studio)

PROFESSIONAL EXPERIENCE

React Developer (Team Leader) at Bigscal technologies Pvt. Ltd.

Sep 2020 – Dec 2022

- Led a team of developers in building high-performance customer-facing e-commerce applications using ReactJS, Redux, React Hooks, React-Router, JavaScript, HTML5, CSS3, SASS, and Bootstrap 4/5.
- Developed a custom API layer to handle all CRUD transactions, JWT token management, and implemented interceptors to embed custom headers.
- Utilized Figma, Adobe XD, and MIRO to collaborate with UX designers.
- Ensured responsive design with flexbox, grid, and media queries.

Mid Senior React Developer at Sigma Solve Ltd.

Jan 2023 – present

- Improved code efficiency and performance, resulting in faster content delivery for enhanced user experience.
- Implemented server-side rendering (SSR) for improved search engine indexing and SEO optimization, impacting organic traffic and discoverability.
- Implemented role-based user access control (RBAC), ensuring data security and allowing for granular permission management, streamlining workflows and collaboration.
- Followed agile development methodologies for efficient, iterative software development and delivery, ensuring timely project completion.
- Architected and developed a high-performing SaaS application enabling real-time content synchronization from the admin panel. Additionally, implemented a user/admin theme customization interface (fonts, colors) fostering a personalized and seamless user experience for both administrators and end-users.

PROJECTS

Travel Win

(React, Next, SSR, Tailwind, Bootstrap, Stripe, Paypal, SaaS, CMS, RBAC, Context API)

- Built a comprehensive admin tool for managing travel and car rental websites, featuring user management, billing, listing management, and role-based access control.

Sonyworld

(React, React Query, i18next, Axios, Bootstrap, Moment, react-helmet)

- Enhanced Sony's e-commerce platform through performance optimization techniques, language-based content caching, and automated sitemap generation for improved SEO.

Different Dog

(React, Gatsby, SSG, Tailwind, Redux, Builder.io, Cloudinary)

- Developed a user-friendly CMS for a dog food and supplies e-commerce platform, enabling non-technical admins to manage content and customize the user interface.

EDUCATION

Bachelors of Engineering (Computer)

2017 – 2021 | Surat, Gujarat, India

Gujarat Technological University

CGPA: 8.83
